ULTRA Scientific At Your Service

Simply log on to www.ultrasci.com and more than a quarter century of knowledge and service is at your command. Access over 6,000 different products. Search

and download up-to-date EPA methods. Print MSDSs at your convenience... and much, much more.

Surfing Made Easy

ULTRA's entire product line is now posted on an easily searchable database. No more thumbing through hundreds of written pages in order to find a specific standard. Just log on to www.ultrasci.com and browse our catalog by method, analyte (or group of analytes), or by catalog number.

If you are an avid user of ULTRA, the "quick search" feature leads you directly to your shopping cart.

MSDS On Demand

Tired of storing all those messy MSDSs? With ULTRA, all MSDSs are stored on our website ready for you to view or print-out at any time. Never get caught in an audit without the proper MSDS again.

Easy Shopping 24/7

Buying ULTRA standards is as easy as 1.2.3. (1) Search for the product you need or customize your own standard; (2) Place all the standards you need into the shopping cart and, after reviewing your order, hit "Submit"; (3) You'll receive confirmation via

e-mail. Need a purchase order before ordering? Simply fill up your cart and save it for your purchasing agent.

Order Literature

While www.ultrasci.com may become your favorite technical desktop folder, you'll also want to keep your bookcase stacked with ULTRA catalogs and appropriate application literature.

Just mouse click what you need and it's on its way.

Fully Accredited

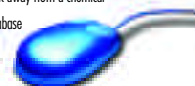

Since 1976 ULTRA has been a leader in the chemical standards industry. We're ISO 9001 registered and

our lab is ISO 17025 accredited. We were one of the first NIST/NVLAP accredited proficiency testing providers. And we're also a DOE approved supplier.

The Only Analytical Tool You Need

You're just a mouse click away from a chemical reference standards database containing everything you need to know.
